What is NTORC Launchpad?

This is a unique event designed to train and empower hospitals to function as Non-Transplant Organ Retrieval Centres (NTORCs).

NTORC
NON-TRANSPLANT ORGAN RETRIEVAL CENTRE
LAUNCHPAD
CONFERENCE
EMPOWERING HOSPITALS
ENABLING LIFE

What will we learn at this conference?

The conference will offer a comprehensive and systematically structured program that covers all critical aspects required for hospitals to be designated and effectively operate as NTORCs. NTORCs play a vital role in increasing the pool of available deceased donors and in strengthening the overall deceased donor program in India.

Who should attend this conference?

If your hospital is not a transplant centre and you wish to learn how to facilitate organ donation when a patient's family expresses the desire to donate their loved one's organs, this conference will equip you with the necessary knowledge and processes to honour those wishes with dignity and efficiency.

Launchpad is open to everyone in Karnataka - Representatives of Government Medical Colleges, Private Medical Colleges, Government or Private Hospitals, Trauma Centers, Emergency Departments.

Please call us to clarify doubts or clarifications!
